Looking for an ideal vacation, you've been through many places. One impressed you with beautiful vistas and nature that surrounds them, the other thrilled you with cultural and historical sights, and in the third one you fell in love with warm-hearted hosts, their legends and stories... Each place had something special and it was special. And then you came to Zagorje, climbed the wine road to one of the many green hills and looked around you. Beautiful! This is really like in a fairy tale. Here is everything, that every real fairy tale has to have - forests, castles and manor houses, museums, thermal springs, churches, paths, vineyards and wine roads, delicious food, dear people, stories, legends and traditional songs.

Zagorje is ready for your safe and relaxing vacation. The friendly people of Zagorje are here to welcome you.
