STARI GRAD DUBOVAC
OLD TOWN DUBOVAC

Zagrad 10, Karlovac

www.gmk.hr

Najstariji karlovački povijesni spomenik nekada je bio obrambena kula, a danas je izletište na kojem se okupljaju brojni Karlovčani i njihovi gosti. Svoje ime Dubovac duguje hrastovoj šumi koja ga je okruživala na brdu iznad rijeke Kupe. Prvi se puta spominje 1339. godine i kroz dugu povijest mnoge su se hrvatske velikaške obitelji izmjenjivale na njegovu čelu. Svoj današnji izgled duguje Frankopanima koji su uložili velike napore kako bi utvrdu pretvorili u čvrstu obrambenu kulu. Danas je Dubovac popularno mjesto za izlet i okupljanje s kojeg se pruža privlačan pogled na grad i okolicu, ali i mjesto na kojem se može puno naučiti o bogatoj povijesti Staroga grada.

The oldest monument in Karlovac used to serve as a defence fort, but nowadays it is an excursion site where many locals and their guests gather. Dubovac owes its name to the oak forest which used to surround it above the river Kupa. It was first mentioned in 1339, and it had been governed by many noble Croatian families. It owes its present appearance to the Frankopan family, who invested a lot of effort in turning the castle into a defence fort. Nowadays, Dubovac is a popular excursion site which offers an attractive view of the city and its surrounding areas, however, it is also a site where you can learn a lot about the rich history of the Old castle.

...that according to the legend, there is a network of secret underground tunnels under the Old castle Ozalj which offered an exit in case of danger?

Znate li da je Ozalj nekada, u vrijeme vladavine Petra Zrinskog, bio neslužbeni glavni grad Hrvatske? Sve to trajalo je do njegovog smaknuća koje je zaustavilo razvoj grada.

Did you know that Ozalj used to be the unofficial capital city of Croatia, during the reign of Petar Zrinski? It remained so until his execution which impeded the town's development.

HIDROELEKTRANA
HYDROELECTRIC POWER PLANT

Munjara je jedna od najstarijih hidroelektrana u Hrvatskoj. Smještena na rijeci Kupi, u početku je služila isključivo za potrebe gradske javne rasvjete u Karlovcu, a korištenje energije bilo je besplatno. Danas je zaštićeni spomenik kulture koji Karlovčane podsjeća na ubrzani razvoj grada. Posebna je po tome što i danas proizvodi električnu energiju, a nalazi se tik uz ozaljski Slap. Izgradio ju je poznati arhitekt i projektant Herman Bolle 1908. godine, a predstavlja primjer istinske industrijske arhitekture.

Munjara is one of the oldest hydroelectric power plants in Croatia. Located on the river Kupa, in the very beginning it served exclusively as a source of street light in Karlovac, and the energy consumption from the plant was free. Presently, it is a protected cultural monument and a reminder of the fast development of the city for its residents. What makes it special is that it still produces electricity, and it is located right next to the Ozalj Waterfall. Built by a famous architect Herman Bolle in 1908, it represents the embodiment of the real industrial architecture.

Stari grad Ozalj oličenje je živopisne priče na klisurama rijeke Kupe. Oblik dvorca poprimio je u 18. stoljeću, a do njega se dolazilo srednjovjekovnim pomičnim mostom. U njemu su obitavale mnoge obitelji koje su mu mijenjale izgled, ostavljajući vlastiti trag i do danas se dosta toga uspjelo sačuvati. Na drevnome mostu još uvijek možete pronaći natpise na glagoljici, a moderniju vizuru dvorac poprima 1743. godine. U današnjem Zavičajnom muzeju osnovanom 1971. godine nalazi se ostavština Zrinskih i Frankopana. S dvorca, ispod kojeg se nalazi tunel sa željezničkom prugom, pruža se impozantan pogled na rijeku Kupu.

The Old castle of Ozalj is an embodiment of the autobiographical story in the canyon of the river Kupa. The Old castle obtained its castle shape in the 18th Century, and was reachable by a medieval moveable bridge. Many families inhabited the castle and left their trace by changing its appearance, but a lot has been preserved. You would presently be able to find Glagolitic scripts at this ancient site, but the castle got its modern looks in 1743. The County Museum, founded in 1971, displays the Zrinski and Frankopan families' legacy. The castle over a railway tunnel offers an impressive view of the river Kupa.

STARIM CESTAMA DO MORA
HISTORICAL ROADS TO THE SEA

Karolina, Lujzijana, Jozefina

Karlovačku ćete županiju najbolje istražiti putujete li starim cestama - Karolinom, Lujzijanom i Jozefinom. Karolina je izgrađena u 18. stoljeću i kao takva je bila prva poveznica današnjeg Karlovca i Rijeke, a ime je dobila po caru Karlu. Zbog svoje relativno male dužine i slabije izdržljivosti, izgrađen je drugi biser - Lujzijana dužine 141 kilometar, nazvana po Mariji Lujzi, kćeri cara Franje I. Ova cesta predstavljala je najkraći put između Rijeke i Karlovca, a gradnjom Jozefine Karlovac se spojio sa sjevernim hrvatskim Primorjem. Putovanje ovim cestama pravi je izazov, jer osim što ćete vidjeti bogatu kulturnu baštinu, uživat ćete u upečatljivim igrama prirode.

It is best to explore Karlovac County travelling on the historic roads - Karolina, Lujzijana and Jozefina. The Karolina road was built in the 18th Century and was a connection between Karlovac and Rijeka. It was named after emperor Karlo. Because it is relatively short and time-worn, another road was built - Lujzijana, 141 kilometers long, named after Marija Lujza, emperor Francis I's daughter. This road was the shortest travel distance between Rijeka and Karlovac, while Jozefina connected Karlovac to the northern coast. Travelling on these roads is a real challenge, because while enjoying the impressive nature, you will also drive by many places which are a part of the cultural heritage.

TRADICIJA PIVARSTVA
THE BEER BREWING TRADITION

Blagotvoran učinak piva prepoznat je još u drevnom Egiptu, a u njemu su najviše uživali graditelji piramida kako bi povratili snagu. Pivarstvo se na karlovačkom području počelo razvijati, sad već davne, 1854. godine, a prvi pogon za proizvodnju piva bio je Perhovo, pivovara na Dubovcu koju je pokrenuo barun Nikola Vranyczany. Suvremena proizvodnja započinje 1960. godine kada nastaje Karlovačka pivovara, danas poznato pivarsko središte Karlovačke županije i Hrvatske. Karlovačko pivo popularno nazivaju "peta karlovačka rijeka". Pridružite se Karlovačkim danima piva, pučkoj svečanosti koja se održava svake godine krajem ljeta na livadi kraj Korane, a koju posjećuje više od 150.000 ljubitelja piva.

The beneficial effects of beer had already been recognized in ancient Egypt, when beer was mostly enjoyed by the pyramid builders in order to regain their strength. Brewing started developing in Karlovac County in 1854, and the first brewery was Perhovo, a brewery in Dubovec which was set up by the baron Nikola Vranyczany. The modern production begins in 1960, after the Karlovac Brewery was founded, presently a very well known "beer centre" of the Karlovac County. Karlovačko beer is also known as "the fifth river of Karlovac". Join us at the Karlovac beer festival "Karlovački dani piva", an event held annualy in the late summer on the bank of Korana river, visited by more than 150,000 beer lovers.

MITOVI I LEGENDE
MYTHS AND LEGENDS

Đulin ponor / Đula's abyss

1

Vile iz Rastoka
Fairies from Rastoke

Rastočke vile u narodu su bile znane kao one koje stanovnicima uzimaju konje koje su mlinari ostavljali pod sjenicama kako bi se odmorili prije povratka kući. Nakon što su konje ranom zorom vratile, prale su svoje rublje u rijeci Slunjčici, zabavljale se i igrale s mlinarima. Okrenite se oko sebe dok ste u Rastokama jer možda ih sretnete na slapu Vilina kosa.

Rastoke fairies were known by the masses as thieves of horses left by millers under the arbour to rest for the journey back home. After returning the horse at dawn, they washed their clothes in the river Slunjčica, had fun and played with the millers. Look around you when in Rastoke because you might see them at the Fairy's Hair waterfall.

Divovi i vještice na Kleku
Giants and witches on Mountain Klek

Prema legendi, "leđa" planine Klek iz smjera Ogulina nalik su divu koji je legao na leđa. Njegova je glava glavni vrh Kleka, a hridi Klečica su njegove noge. On voli spavati, no njegov san često ometaju vještice koje dozivaju munje i gromove, pozivaju na sijelo. Vještice, odnosno coprnice kuhaju i mažu se misterioznim travama i uljima, pustoše gostionice, plešu vlastite začarane plesove, jedu djecu, a Klek je prema mnogim izvorima mjesto vještičjih sastanaka i vradžbina. Vještice su za svoje nedaće bile kažnjavane kamenovanjem, paljenjem i skamenjivanjem.

According to the legend, the "back" of the mountain Klek from the direction of Ogulin looks like a large giant lying on his back. The peak is his head, and the two Klečica reefs are his feet. He likes to sleep, but his sleep is often interrupted by witches who invoke thunder and lightning and call to site. Witches, or "coprnice" cook and rub themselves with mysterious herbs and oils, devastate bars, dance their own spellbound dances, eat children, and according to many other sources, Klek is their meeting place and a place where they practice witchcraft.

Kako je Đulin ponor dobio ime?
How Đula's abyss got the name?

Živopisni ponor dubine 40 metara ime je dobio po djevojci Đuli (Zulejki) koja je bila kćer Ivana pl. Gušića, zapovjednika tadašnje ogulinske tvrđave. Njezini su je roditelji obećali starijem plemiću za ženu, no u to vrijeme u Ogulin je stigao mladi kapetan Milan Juraić u kojeg se Đula zaljubila. Ubrzo ga je stigla loša sudbina i poginuo je u bitci s Turcima. Žalosna Đula bacila se u ponor rijeke Dobre, i tu počinje priča da Đulin ponor po njoj dobiva ime. Posjetite li ponor, zagledajte se u liticu iznad ponora u kojoj je vidljiv profil muškarca koji gleda prema velikom tamnom otvoru ponora. Stari Ogulinci vjeruju da to Milan traži svoju ljubav, Đulu. The 40 meters deep picturesque abyss was named after a girl, Đula (Zulejka), the daughter of Ivan pl. Gušić, the commander of the Ogulin fort at the time. Her parents had promised her to an older nobleman, however, a young captain Milan Juraić came to Ogulin at that time and Đula fell in love with him. She soon received bad news that Milan had died in a battle against the Turks. Devastated, Đula threw herself into the abyss of the Dobra river, which is how Đula's abyss got the name. If you visit the abyss, look closely at the rocks above the abyss, where one can see a profile of a man looking down into the dark abyss. The people of Ogulin believe that it is Milan looking for his love, Đula.

Osim na 4 rijeke, tu je i 900 turskih lubanja
Aside from four rivers, there are also 900 turkish skulls

Sigurno već znate da je Karlovac grad na četiri rijeke. No, osim što tamo možete uživati u pogledu na Kupu koja prolazi gradom, možda ćete čuti i da je kamen temeljac grada položen na lubanjama. Legenda govori da su to lubanje turskih vojnika koji su poginuli pod drevnim gradom Dubovcem 1578. godine. Turci su svima koji su im došli pod ruke odrubljivali glave, pa su domaći njima zauzvrat učinili isto i na lubanjama sagradili Karlovac. Surely you already know that Karlovac is a city on four rivers. However, while you are enjoying the view of Kupa which flows through the city, you might also hear that the foundation stone was laid on top of skulls. Legend says that these are the skulls of Turkish soldiers who died under the Old Town Dubovac in 1578. The Turks used to behead anyone they got their hands on, so the locals retaliated by doing the same to them, and then built the city of Karlovac on top of their skulls.
