## DALMATIA - ŠIBENIK

If you want to enjoy the true beauty of nature, experience the richness of cultural and historical monuments that date back centuries, with an exceptionally unbound and exciting coast, or explore the secrets of the hinterland, the right place for you is our region. Two national parks, Krka and Kornati, two protected cultural monuments on UNESCO's list of world cultural heritage sites (the St. James Cathedral and the St. Nicholas Fortress), numerous islands and islets, monuments, archaeological sites, protected landscapes, both on the shore and beyond the coast – you are given countless opportunities for a real vacation. If you visit Šibenik's hinterland, you will discover the historic fortresses around the Krka River, the archaeological sites of Burnum and Bribirska Glavica, as well as the locality of Danilo Rider with its prehistoric archaeological remains. You will feel the spirit of the Dalmatian village and experience the a forgotten way of life.

Explore the Dinara mountain range, Croatia's highest mountain peak at 1.831 metres, by hike or work up your adrenaline on one of the many cycling trails, but be sure to visit the historic towns of Knin and Drniš, as well as the unique hydrothermal nature monument of the Cetina River.

Walking or jogging the Vrana Lake Nature Park trails will allow you to see a wide variety of rare birds' species that inhabit the area. Continue on to the island of Murter and experience the authenticity of a fishing village. Follow the centuries-old drywall and olive tree groves and you will reach Tribunj and Vodice where you will find a rich gastronomic offer. Go a little further and you will reach the pearl of Dalmatia - the renaissance Sibenik, considered one of the most beautiful cities on the Mediterranean, with its UNESCO protected St. James Cathedral from the 15th century and city fortress. One should not forget Primošten and Rogoznica - small fishing towns with numerous interesting legends and stories to tell.

Dalmatia - Sibenik is a region where you can enjoy a wide variety of offers - whether you want to stay along the coast and enjoy the sea air, or get to know the well-wooded hillside hinterland, its vineyards and olive tree groves. Whether you are looking for adrenaline inducing mountain climbing, are interested in exploring the Krka or Čikola River Canyons, or just want to enjoy the mild Mediterranean climate, with a pleasant temperature and a relatively small rainfall, this region makes an ideal vacation for you, no matter the time of year.

## STEP INTO THE CULTURAL HERITAGE WITH US

Immerse yourself in antique and medieval history, stroll around preserved archaeological sites, explore imposing fortified strongholds, visit grand churches and monasteries, check out interesting ethnographic museums and exhibitions, and simply revel in cultural abundance that this county offers!

By being located at the crossroads of historical trade and military routes, the region was often defended against invading forces or influenced by their pervading culture, naturally embraced during the periods of their lengthy presence. Today's rich and lasting legacy of the county has in a way developed from fortunate outcomes of otherwise unfortunate events, as local architecture and artwork were blending nicely with the patterns and designs of Roman, Turkish and Venetian masters.

Many important archaeological sites and distinctive secured strongholds, frequent hallowed and adorned churches of varied styles, as well as several colourful monasteries and museums, thrill, enlighten and transport you back to the historic period of your choice!

## CHILDREN'S FESTIVAL FAMILY HOLIDAY

Established in 1958, the International Children's Festival celebrates the creativity and imagination of children, making Šibenik the center of the world of children. The old city centre is transformed into a huge playground for children from all over the world. Through play, they can express themselves in artistically, whether it is drama, film, painting, music or literature. Being a part of a theatre play with educational and cultural programmes, is a special experience for both kids and adults. Here you will meet and take part in storytelling, performances, puppet shows, film and drama programmes, various workshops and much more. Enjoy some family time in medieval Šibenik with the International Children's Festival, visits to the Krka National Park and Kornati, and various open-air activities. With our programme, you will never be bored, and you will create family memories to last a lifetime.

## PRUKLJAN LAKE SAILING TOUR WITH VISITING MISTICAL ISLAND OF STIPANAC

Prukljan Lake is the setting of many legends inspired by the beauty and secrecy of nature. Connected to the Stipanac Island, is the folk legend of Gavan and his wife Gavanuša who demeaned a beggar by kicking him bread with her foot beneath the table, not knowing that he was an angel in disguise. For this harm, the Gavan Court, as well as Gavan and his wife, were sunk in the lake. Feel the spirit of the past admiring the still visible remains of the ancient church of Saint Stephen from the 12th century, from which the island got its name - Stipanac. During the boat ride, take a look at the depths and you will see the path at the bottom of the bay that once connected the island with the mainland (which, according to legend, was not an island at all). Look for some hidden sign of ancient life from the time of the ancient Romans in the protected area of the Prukljan Bay.

## GUĐUĆA ORNITHOLOGICAL RESERVE VISIT

Birds hold something unattainable for us humans. They are free in the flight and we kind of envy them. Approach them in the spring or early summer and visit the Guđuča ornithological reserve. On this unique occasion, sailing a noiseless boat, kayaking or canoeing, watch the birds from the surface of the water or from the Guđuča gazebo. More than 153 bird species live here, of which 30 are endangered. The protected area of the Guđuča reserve will receive you warmly as you become one with nature - enjoy its beauty, experience harmony and peace with the many rare species of birds. You will learn about the history of this region, live nature and be a part of it. Look for additional ways of being acquainted with nature - by cycling or by tasting the distinctive food and drinks of this region. Is there a better way to vacation and relax?

## MEET SKRADIN

Skradin is a town with narrow paved streets, passages, archways and stairs where the entire old town centre is a protected cultural monument. We will take you on a unique walk through the ancient Skradin, a romantic town where the Krka River dips into the Adriatic Sea. The tour starts at the Mala Gospa Square, named after the Church of Blessed Virgin Mary, or as locals call it, Mala Gospa, built in the late-baroque style. What is interesting about Skradin is its kampanel (church bell tower), which was raised on the closest cliff because of its weight. Built in 1872 by the former Skradin bishop, Antun Stjepan Trevisan, the tower is considered a symbol of this city. To make an impressive memory and take in one of the area's most beautiful views, we will walk together to the medieval fort of Pavao Šubić Bribirski or Turin, built on the site of the old Liburnian fortress.

## A WEEKEND OF SHIPS AND STONES

Discover the rich history of the island of Murter, the traditional values and facts about our region and the importance of preserving heritage. We will tell you how the inhabitants of the island of Murter used to live. We will introduce you to unique wooden shipbuilding, where a master shipbuilder will teach you about how the famous Betina gajeta (fishing sailboat) used to be made, possibly even organizing a small internal regatta on Latin sails. Leave your mark on nature by building your own drywall construction typical for this region. Taste the local specialties and wines in the spirit of traditional regional customs. We will take you back to the ancient Roman era by visiting a number of archaeological sites. Finally, go on a treasure hunt with us in a game of Geocaching. We will not look for gold, but hidden cache boxes found using GPS.

## MAY PROCESSION WEEK ON MURTER

Two Christian holidays are celebrated at the beginning of May in Jezera on the island of Murter. The celebration of Saint Constant takes place on the nearby Kružak hill in the church of Saint Constant, which was built as a votive church for the patron against malaria. The inhabitants of Jezera who had been suffering from malaria since 1780 built the church. In the bay of Saint Nicholas, the first Sunday of May marks the celebration of the dedication of the Saint Nicholas church, the oldest church on the island of Murter, dating back to the 15th century. On this day, the people of Jezera sail on tasselled boats carrying the statue of St. Nicholas from the Jezera bay to the Saint Nicholas bay, where a ceremonial mass is held followed by a special programme. Join the numerous pilgrims in search of peace in these processions, replenishing their souls, enjoying cultural content, folklore performances and various handicrafts displays.

## DELIGHT YOUR TASTE!

Discover a rich gastronomic diversity of the region, try elaborate traditional dishes, enjoy succulent continental meals, taste excellent seafood and light Dalmatian delicacies, appreciate colourful local sweets, savour superb wines and aromatic liqueurs, and take home with you a memorable gourmet experience!

The gastronomic tradition of Šibenik-Knin County is widely known. The similarities with Italian and Turkish cuisine are quite obvious, which is connected to the long Venetian and Ottoman rule in this area during the Middle Ages. The main characteristics of local cuisine are fresh food and in most cases simple preparation, with not too much spices and aromatic plants (except parsley, garlic, onion and bay leaf), and it can be divided in two major varieties, the one connected to the coastal and insular part and the other characteristic for the continental part of the county.

## MAGICAL AND AUTHENTIC CROATIA

The most famous Croatian photographer Ivo Pervan says that Šibenik is the most photogenic city in the world. One can argue the whole region can be included in that statement – the waterfalls of the Krka National Park, the islands of the Kornati archipelago, the scents of the hinterland villages, all of which can be conveyed in photography. Our tour will not be lacking in the experiences and motives for countless photographs. We begin in Šibenik, in its old town core, with its great fortresses. The islands of Prvić and Zlarin exude the Mediterranean as it once was, and the same goes for their architecture and visuals. The magic of the Krka waterfalls is best experienced outside of the hot summer months, with plenty of water and the absence of tourists. Hidden secrets are kept in the villages, stone houses, drywall structures, local specialties and wines, eye catching and delicious foods. Accompanied by a tour and photo guide, you will have the opportunity to discover the best hidden photo locations that offer stories of a rich culture and gastronomy.

## CROATIA - THE FLAVOURS OF THE MEDITERRANEAN

In addition to being proud of Croatia's natural beauty, Croatians are also very proud of their gastronomy. Based on the traditional, natural and healthy Mediterranean diet, this cuisine was recognized for its value by UNESCO, which has placed it on its list of non-material cultural heritage in 2013. Join us and we will introduce you to the genuine flavours of mysterious locations. We will provide you with a real and meaningful tie to the people, places, culture, food, heritage and environment by traveling through less frequent locations and routes on the charming Mediterranean islands of the Šibenik archipelago, on the coast and in the hinterland of Šibenik, allowing you to discover these hidden pearls of Croatia. You will enjoy our cuisine, wines and a good atmosphere, explore hidden corners, meet interesting people, and hear their stories. Far from the mask of civilization and uncompromising standardization of a tourist offer, you will become part of the true Dalmatia.

## SCENTS AND FLAVOURS OF HOME

The Dalmatian Hinterland is known for its appealing delicacies, the best Croatian prosciutto, vintage cheeses and wines. Our journey will feature the alluring scents and flavours of a homeland. Embedded in local stories, people and cultural landmarks – you will be stunned. Our journey through the scents and flavours of the Dalmatian Hinterland is a gastronomic excursion through the hinterland of the towns of Knin and Drniš where the oldest heritage and tradition is maintained, going back eight centuries. The food on our menu is prepared traditionally: lamb is roasted or made ispod peke, cheese is made from sheep's milk, and the most famous, world-recognized prosciutto of Drniš, bar none. If you would like to taste the fruits of the Krka River: fish, shellfish and crabs as well as wines and olive oil from the Skradin hinterland, we will indulge you and visit the local wine and oil makers, saving you a seat at the table with the best fish specialties of the region.

## WINE ROADS OF PRIMOŠTEN

Babić is an indigenous Croatian type of grapevine that makes up 99% of the Primošten vineyards, growing grapes to make the famous Croatian wine, Babić. At the first mention of Babić, wine lovers mostly recall the images of the stone Primošten lace from the location of Bucavac, often seen in various adverts. This image perfectly contours the conditions needed to cultivate this demanding sort of vine, to produce the majestic wine Babić. The Bucavac vineyard is the most famous place for Babić rearing. The picture of this vineyard is exhibited in the building of the United Nations as an ode to human labour. The Marinov winery in Vezac village will show you the way grapes are processed into wine, the process of production and preservation of the Babić wine. At Jurlin's Court you will be presented with the ethnography and sacral collection of the Primošten area, granting you an insight into the traditional way of life in the Dalmatian hinterland.

## WINE TOUR PLASTOVO

The treatment of soil and the exploitation of the surrounding river and marine resources has always been the core activity of the inhabitants of Skradin. Ancient sites the likes of the Roman Villa Rustica with remains of a wine press, and wine and olive pools illustrate this fact perfectly. Even before the Roman era, the great Liburnian sailors had transported their products with Liburnian ships. By visiting the three indigenous winemakers of the Skradin hinterland - the Bibić family and the two Sladić families, you will enjoy both simple bites as well as assorted menus of dishes made from local foods, which draw from traditional food preparation methods, masterfully combined with local, indigenous wines of various types carefully selected to create a unique eno-gastro experience. You will feel the authentic nature of the Skradin region and the way its inhabitants live.

## WINES OF THE HINTERLAND

Sometimes, the best way to meet an area is through the wines it produces on smaller, family run wineries. You will bond with your local hosts through tastes and scents, making you feel at home. Bibich wine is a family wine cellar that has been producing wine for several generations. Their wines are on the wine lists of the world's best restaurants. Beside the Bibich wine tasting, you will also experience several sensational molecular gastronomy dishes. The young Sladić family winemaker will show you their vineyard, the place where the wine is made, offering you their best wines to taste. For those looking to explore their offer further, the Sladić family offers domestic liqueurs, which they are also known for. The liqueurs are made with quality grapes, soaked in the wild fruit grown in the village of Plastovo. All of the above awaits you, including a compulsory Dalmatian peka and pleasant company of the host.

In afternoon hours we'll pick you up in city center with a comfort luxury car to welcome you to our town and to discuss itinerary at the "best seat" in town - at famous Barone fortress!.

**Day 2** - Winery & beautiful nature (Waterfalls)- On the second day of our itinerary we are visiting our first, family owned winery in our region and beautiful Krka Waterfalls National Park. The local tour leader will be with you for the whole time and after exploring the Park, we will suggest a lunch in a beautiful town of Skradin, located on the same river, and locally known for delicious cuisine!

**Day 3** - Winery & private guided heritage tour (Šibenik Old Town)-Meeting your guide for a private guided tour of Šibenik Old Town. Learn about its culture & history passing through the narrow streets that will reveal to you the true Dalmatian city vibe.

**Day 4** - Winery & Dalmatian island vibe (Island of Prvić)-To start our final day trip where we will combine our third winery visit with the visit to the island of Prvić, where we will learn all about Faust Vrančić, famous inventor, bishop, philosopher and lexicographer from our town, Šibenik. First, we will visit our winery for a 90 min experience and wine tasting!

## **BE NATURAL, BE ACTIVE!**

Delight in fabulously tranquil environments found throughout the county, engage in all sorts of exciting outdoor activities and try some dynamic sports that you may not have tried before, while all along enjoying an amazing active vacation!

As in many other popular destinations for great active vacations, in Šibenik-Knin County one can find excellent conditions for trekking, hiking, biking and scuba diving. The region however offers much more variety and excitement, as well as numerous opportunities for vigorous enjoyment and energetic fun. Stirring natural marvels of the area almost urge you to take action and start exploring every nook and cranny of the imposingly rugged inland, the invitingly indented coast and the inspiringly intimate islands!

## CYCLE AND SAILBOAT THROUGH THE HINTERLAND AND ACROSS ISLANDS

This is a unique combination of adventure and pleasure, experienced in the intimate atmosphere of the company of friends or family, sailing on our luxuriously equipped sailboats and visiting a new island or harbour every day! We will take you through the most beautiful parts of northern Dalmatia on waves and wheels. You will feel the blues of the island of Žirje, the furthest island of the Šibenik archipelago and a part of the Kornati island chain. Because of its geographic position, it has been the main maritime control center of this part of the Adriatic since ancient times, with a population of 103 inhabitants. You will be in awe of the breathtaking panoramas around you. From the highest Žirje peak, you will see the island of Vis, the Kornati National Park and the Šibenik archipelago. Enjoy cycling through the olive groves, experience the history and tradition enhanced by the enchanting virgin nature, and try the local food, wines and delicacies.

## OFF ROAD HIDDEN JEWEL

This trip guarantees an off road sightseeing experience of the exceptional cultural and natural beauty of the Dalmatian hinterland and the old regal town of Knin. To discover the pearls of this area we will visit the Knin fortress. After we do a little sightseeing, photography and, of course, have our morning coffee while indulging in the experience of being at the biggest Croatian fort, we will make our way to the Cetina River via the old Napoleon road. We will continue toward the Krka River source, on an exhilarating raft ride through the wilds of nature, in the ambience of the forest, lush grass and greenery. We will also see Bilušići buk, the Roman military camp Burnum, the Krka monastery, Roški Waterfall and Visovac, an inescapable postcard and brochure motif. Use your camera to capture the best frame on this route, on which we exchange an SUV for a raft, spicing everything up with some good food and a fine drop.

## THREE IN ONE IN THE KNIN HINTERLAND

### *Veliki Kozjak – Cetina Spring - Fortress Glavaš*

If you want to take a breath of fresh air and walk the mountains surrounded by panoramic views of the Dinaric massif, gaze into the Europe's deepest spring, enjoy the preserved natural environment, culture, history and excellent food - join us! On the way to Kijevo village, we enjoy a beautiful panoramic view of the southern waterfalls of the Dinaric massif, Svilaj, Moseć, Promina and Velebit, the fertile Petrovo field... We will pass by a breeding site for game hunting, mouflon and deer. The area is known for its 10 endemic types of mountain flora, unique only to Dalmatia. The Cetina spring, a hundred feet wide, is so deep that no one has ever reached its bottom where it still keeps its secrets. The third point of our triangle is the attractive and powerful fort of Glavaš, famous for its archaeological and historical role.

## VIA DINARICA - TO THE TOP OF CROATIA

Mountain and nature lovers, you will identify with this adventure and the amazing experience of the beautiful Dinara, Croatia's highest mountain and one of the most picturesque mountains of Dalmatia. The Dinaric massif, 20 kilometres long and 10 kilometres wide, rises above the town of Knin, letting beneath its impressive slopes the springs of the Krka River, Krčić and Cetina. Our journey will begin in the village of Mirkovići, from where we will continue toward the Brezovac mountain lodge, walking a total of six hours with several breaks, to finally reach Croatia's highest peak - Sinjal at 1.831 metres. Climbing the top of Croatia and the top of Dinara, we will pass flower meadows and forests, we may even encounter snow that sometimes keeps on the mountain peaks to the beginning of summer, even though the sea is a mere 50 kilometres away. After enjoying the panoramic views and a brief rest, we still have 3.5 hours of walking back to the starting point of our climb.

## TIME TRAVEL IN DALMATIA

Discovering the Cetina River, visiting the Old Croatian Church there, climbing the fortress of the regal town of Knin, visiting the island of Visovac, playing balote and enjoying the “ispod peke” food prepared at a family run farm in the hinterland ... sounds like someone has put together a playful package for grown-ups. But this is not a game! Jeep safari off road tours are an innovation on the Šibenik-Knin market. Apart from making our visitors happy, the aim is to help local communities, revitalize the Dalmatian hinterland, introduce tourists to the authentic culture without embellishing anything, and let them get to know Croatia as it really is: flourishing and poor, historically rich with a superb gastronomic and enological scene. Because we only work with small businesses, the presence of local is inevitable, so the authenticity of the scenes, food, character and ambience is complete.

## THE LEGEND OF THE GAVAN COURT

Prepare yourself for a unique experience that leads through you the city of Skradin, comprising sailing the bay of Pukljani and an enticing lunch or dinner with authentic regional specialties carefully selected and prepared in the taverns of Pukljani. Sailing by boat on the bay of Pukljani is specific because of the proximity of the sea, which means the waters are a mixture of seawater and fresh water. Located in the bay is the island of Stipanac where the remains of an ancient church are visible. A gravel road used to connect the island with the shore – during low tides, this old road rises up and can be seen even today. While driving towards Stipanac Island, our tour guide will tell you about the legend of the Gavan Court and the emergence of this island. Finally, we will visit Guduča, a natural ornithological reserve, the habitat of more than 206 different breeds of birds.

Sightseeing Skradin with a local guide; sailing on the Pukljani lake; lunch or dinner in a tavern with authentic specialties; visit to the Guduča natural ornithological reserve.

## SKRADIN HINTERLAND ON TWO WHEELS

Skradin is a town with narrow paved streets, passages, archways and steps where the entire old city center is a protected cultural monument. At a glance, the peaceful shores of Skradin probably don't reveal the secret of its city center and gastro culture, which is over 2000 years old. Discover with us parts of the past by exploring Skradin and its hinterland. Experience nature by visiting the protected Guduča ornithological reserve. Pleasantly cycling, we will pass by a large olive grove and one of the five oldest Croatian cemeteries dating back to the 8th and 9th centuries. We will climb down to Roški Waterfall, with its numerous cascades a spot of the Krka National Park that you cannot miss. We will view an old Roman road transiting across the waterfall, as well as a series of mills, stacks and washboards located on either side of the waterfall.

Departure from Skradin; ride through Bićane village, next to Prukljan lake; view of ornithological reserve Guduča, visitation of the Krka National Park, sightseeing Roški waterfall, mills, old Croatian cemetery.

## TOUCH OF HISTORY OF THE SKRADIN REGION

At first, the peaceful shores of Skradin city will not reveal the secret of its culture, which stretches over 2000 years, and concealed just like the strategically positioned city, with its fertile fields, its river and sea depths and oddly beautiful landscapes. This harmony is mirrored in Skradin's Medieval City Statute from the 14th century, during the rule of the famous Pavao Šubić, when Skradin was the capital of Croatia and Bosnia. Further back, in the 4th century, Skradin was the home of early Christian bishops. Even earlier, it was the capital city of the Roman province of Liburnia, and before that capital city of Liburnia. We came up with a cycling tour that leads from Skradin towards the Bičane village across Pukljana to Sonković village. On the route, you will get the opportunity to see the wealth of historic remains, forts, churches as well as to taste authentic foods and wines.

Acquainting the antique history of Skradin, tour of protected areas Pukljan and Gduć, the Sonković tower from 1528, visit to the fresh water well, the church of blessed Alojzije Stepinac and St. Mark, native gastronomy.

## CYCLING THROUGH ANCIENT TIMES

Archaeological sites are always interesting to visit and inspect. Even though they are sometimes made up of barely recognisable remains, it seems as though a spirit from the past speaks through them and we are at once closer to hearing the sounds of a life that used to be. Cycle with us to Danilo, the village under which lay the remains of the Roman settlement Rider. Our cycling tour leaves from Skradin towards Bukići and Gradina, and continues across Škaljevice towards Danilo Gornji, one of the most significant archaeological sites in Croatia. There is a complex of a Roman villa, while the Gradina site features remains of dwellings and a fortification system dating back to prehistory and up to the Middle Ages. Danilo culture is associated with the riton – a decorated bowl with four legs with a large handle used in rites, while the whole Neolithic cultural circle is called Danilo culture. Come and hear the past!

## BIG GAME FISHING

The setting – the sea. The time – March, April. Tuna hunt. In these months, tuna fish are smaller and move in herd so a lot of effort is required for a fish to bite the hook. The duration of the trip is three to five days. Sounds difficult? Big game fishing is all about teamwork. Big game fishing is unpredictable. You have to arm yourself with patience to the very end, and be prepared to act quickly. The final result will depend on the entire team. We will make sure your experience is exciting and comfortable, tiring and relaxing, tense and unforgettable. Every day from 9 am to 4 pm, with your smaller team of 3 to 4 people, you will fish on a boat with a skipper and all the necessary fishing gear. After a good catch and having had fun fishing, we will land to harbour. In the evening, we will recall the experiences in a relaxed atmosphere, including dinner with traditional Dalmatian dishes and wines. Ready to sail?!

The travel package ranges from 1 to 5 days. The activity programme for a three-day package includes:

**Day 1** – fishing, dinner.

**Day 2** – fishing, trip to the Museum of Shipbuilding in Betina, dinner.

**Day 3** – fishing, dinner.

The package is available from March 1st to May 15th for groups from 3 to 15 people. Accommodation is available in three star private housing and transport can be arranged according to request.

## TRADITIONAL SAILING

The wooden boat glides quietly on the surface of the sea while the sails easily bloat. The wind wants to steal and guide it away, toward the open sea. In this effort, it cools and refreshes hot foreheads. Only a few sounds of wood and rope that creak in tension. We are in awe of the ease with which just a few pairs of hands keep everything in check, taming this beautiful sail. Master traditional sailing techniques on a traditional wooden boat. Familiarize yourself with the importance of a wooden boat for the islands and take part in one of the regattas on Latin sails. First, we will acquaint ourselves with a traditional boat, followed by the theoretical part of gaining an insight into the importance and history of a wooden sailboat on the islands and visiting the Betina Museum of Wooden Shipbuilding. The next two days are reserved for a sailing course on a wooden boat in the Murter Aquarium. The last day will be spiced up by our participation in one of the regattas on Latin sails.

## 3-DAY ACTIVE TOUR

Vodice is a tourist destination known for its vibrancy and appeal, diverse tourist offer and friendly hosts. It is located in a large bay, 11 km northwest from the town of Šibenik, the centre of the Šibenik-Knin County.

**Day 1** - The group usually gathers around mid-day, which leaves plenty of time to find and adjust a bicycle for you and then take you on a ride through Vodice.

*Accommodation:* private guesthouse in Vodice; *Meal:* dinner at the restaurant Karmelski Dvori located at the foot of Okit hill.

**Day 2** - Kayaking to the island of Prvić The island of Prvić is beautiful and serene. Its streets are narrow, curvy and steep. Its stone houses will surely capture your attention with their specific details, while telling the same story. Karst, rocks, unique tracks. The island with its two settlements, Šepurine and Prvić Luka, was first mentioned in the 11th century. It was more substantially inhabited by people from Srma and Vodice fleeing the Turks. In the 16th century, the island became a fashionable resort for the Šibenik nobility, where they built their villas and summer residences. The famous Šibenik family Vrančić was no exception. Join us on an enjoyable bicycle ride through Prvić Šepurine and Prvić Luka where you can feel the island spirit or, for those who are a little more prepared/agile, the challenge of singletracks and wild rides between fields and houses! At the end of our tour, we will enjoy a delicious lunch at the restaurant Bare in Prvić Šepurine.

**Day 3** - Vodice-Vodice Welcome to the track that will take you through the Vodice hinterland, where the first settlements were founded already in prehistoric times. Feel the spirit of the past and explore the history of Vodice. As one of our most beau-

tiful tracks, it will take you on an incredible journey. On this track we will have the chance to see the Church of St. Elias the Prophet, an old Roman cistern, the Church of St. John, old Roman wells, the prehistoric settlement of Aruzona, the archaeological site Velika Mrdakovica. At the end of our tour, we will enjoy a savoury lunch at the restaurant “Roca – The House of Dalmatian Prosciutto”.

**Day 4 - Trekking - island of Žirje** Feel the adrenaline, forget your laziness. What is the simplest way to do healthy exercise and sightseeing? Trekking is the answer. Žirje is an island and a settlement in the Croatian part of the Adriatic Sea. It is located in the Šibenik archipelago, approximately 22 km southwest from Šibenik, which makes it the furthest permanently settled island in the Šibenik archipelago.

## WATER PATH

Vrana Lake Nature Park is one of 11 nature parks in Croatia. This lake is actually a karst field filled with water, which is a rare example of a cryptodepression. It is also the largest natural lake in Croatia. As such, it is a home to more than 235 different bird species. Krka National Park is the seventh national park in Croatia known for its numerous lakes and waterfalls. It was named after the river Krka, which is a part of the National Park. The river Krka today has 7 travertine waterfalls and its beauty is a natural karst phenomenon. We recommend a visit in the spring and summer when you can marvel at its full splendour. The island of Prvić is beautiful and serene. Its streets are narrow, curvy and steep. Its stone houses will surely capture your attention with their specific details, while telling the same story. Karst, rocks, unique tracks. The island with its two settlements, Šepurine and Prvić Luka, was first mentioned in the 11th century.

The tour package may be arranged, and its duration is 4-7 days. Generally, the 5-day package includes the following activities:

Day 1 - bicycle tour around the Vrana Lake Nature Park, wine tasting at the Birin winery;  
Day 2 - bicycle tour around the Vodice hinterland, visiting the archaeological site Velika Mrdakovica and the restaurant "Roca – The House of Dalmatian Prosciutto".

Day 3 - bicycle tour from Vodice across the Guduće canyon, Skradin to Krka NP;

Day 4 - kayaking from Vodice to the island of Prvić, visiting the Faust Vrančić museum;

Day 5 - trekking to the settlement Tribunj.

The package may be arranged throughout the year for groups of 5 to 10 persons.

Accommodation (categorisation) may be provided in private guesthouses. The tour may be professionally guided in English and Italian (it may be arranged in other languages at request).

A person is relaxing on a wooden deck by a body of water. They are holding a glass of orange juice with a slice of orange on the rim. The water is a vibrant blue-green color. The person is wearing a white shirt and shorts. The background is a soft-focus view of the water and the sky.

## ONE DAY EXPERIENCE

## UNESCO ŠIBENIK - PRIVATE TOUR BY BOAT

Meet your Captain and a certified guide in front of Hotel Bellevue, and start this unique private heritage tour by boat! Instead of walking today, you'll be cruising along beautiful Šibenik bay having a glass of local wine, and learning from your guide about two UNESCO monuments of Šibenik. Did you know that Šibenik is the only town in Croatia having even two UNESCO monuments? You are definitely at the right place if you are interested in knowing more about our history and heritage. On this tour you will get a chance to learn about St. James Cathedral, our most popular attraction and beautiful monument from Renaissance period. Cathedral has been on UNESCO World Heritage List since 2000. Second UNESCO site you will visit from your boat is famous St. Nicholas Fortress, at the entrance of the town, from the sea side. It was built by Venetians to defend our town from Turkish invasions. Tour takes maximum 2 hrs and option is to book it for afternoon, between approx 6 pm – 8 pm, to have nice sunset atmosphere along the bay.

## FAMILY ECO TOUR

This Family Eco Tour will give you an additional experience at your seaside holiday. A visit to a one of a kind Falconry Center in the little village Dubrava, just 8 km away from the centre of Šibenik will be an unforgettable experience for everyone wanting to feel a breeze of wilderness and adventure by getting to know the mysterious life of sky hunters – falcons. Visitors will see a special program where they will enjoy observing the beauty of falcons flying and have them so close to see them eye to eye. A special place in this Falconry Center is an ambulance for birds that helps all wounded, sick or starved birds that need help with surviving in the nature. Visit a place where Croatian medieval falconry was born and where a lot of falcon trainers have learned their expertise.

After the visit to Falconry centre we will be taking you to a horse farm where you can continue enjoying the nature far away from the city heat and try horse riding on. For the end of this beautiful day we'll enjoy in domestic food and relaxed ambiance of the traditional Croatian household.

## WATERFALLS, WINES AND BITES

Unique and special experience, early afternoon break under waterfalls, food & wine, 'Croatian Tuscany'

Your amazing afternoon starts under the most beautiful waterfalls of the National park Krka, Skradinski buk. Walking on decorated bridges, sightseeing the mills and their contents like ethnological collection and demonstration of old crafts... Refreshing breeze, contact with pure water, amazing and untouched nature, swimming under waterfalls – good beginning, isn't it?

We leave waterfalls and we keep driving into the hinterland, in the small Dalmatian village, north of Skradin, so called „Croatian Tuscany“. We spend a rest of afternoon in a family winery where this cherished winemaking tradition has been handed down from generation to generation.

They are offering wine tasting with food pairing: quality 5 wines, 2 liquors perfectly paired with 6 bites/snacks - artisanal food products - Olive oil, cured meats, dried fruits - all locally grown and hand made by family. Our presenter is professional enologist who will give you an informative tour through wines, grapes and vineyards and then he and his family will serve you a real eno-gastronomic sensorial experience. Bon appetit and cheers!

## CORAL ISLANDS - ZLARIN AND KRAPANJ

The islands of Krapanj and Zlarin are a part of the Šibenik Riviera and are certainly one of the most beautiful small inhabited islands in Croatia. The island of Krapanj is known as being the lowest island on the Mediterranean (only 1.5 m above sea level). It is also known for its traditional sponge harvesting and processing. The island is also home to St. Cross Monastery, where you can visit a small museum of sponges, corals, amphorae and antique dishes.

The island of Zlarin, located in the immediate vicinity of the island of Krapanj, is known for its rich Mediterranean vegetation (Aleppo pine, figs, cherries, wild raspberries...) and the longest island waterfront in Croatia (101,5 m). On the island of Zlarin you can also see a demonstration of traditional coral (sea plant) jewellery manufacturing, but what you will remember the most is, above all, the charm that this island boasts.

## BIKE AND WINE

Dalmatian soil is mostly made of rock with little soil on top of it. But that little piece of soil is the essence of life which rewards hardworking people that cultivate it. Red Dalmatian soil, being first cleaned of stones which are then arranged into walls without binding material (called „suhozid“ meaning drywall), is incredibly fertile when irrigated and that is why Dalmatia is known for its olive grove and vineyards. Virgin olive oil, figs, grapes and wine are our most important and valued products and drywalls, creating both shelter for plants and incredible patterns in nature, are on UNESCO's list of the intangible good of humanity.

Morinje bay is placed right behind of Šibenik's suburb so we ride on small field roads among olives, vineyards and small gardens. Morinje bay has always played an important role in agriculture of local population because of its brackish waters and underground sources of fresh water. It is a fruitful valley that has been cultivated even before The Roman Empire. The small climb will get us to vineyards situated on hill tops over Jadrtovac village. During the wine tasting you will be introduced to the long history of the wine making in this area and you will have a chance to taste the best wines of local varieties that has been internationally recognized and awarded.

From vineyard we continue to small village of Brodarica. On our way there we will cross Morinje bridge with magnificent view

on Island of Krapanj. In Brodarica village we stop for refreshment and swim (depending on weather conditions) and after the break we ride on the road next to the coast. On our way to Zabláče village we will also ride through the Amadria Park hotel resort which also makes an interesting ride. After Zabláče, the road leads us to St. Anthony channel with St. Nicolas fortress at its sea entrance. This monumental fortification has been built on small islet to prevent any possible attacks of The Ottoman Empire from the sea on city of Šibenik and has recently been placed under the protection of UNESCO. It also served as film set for popular serial Game of Thrones that has been filmed in Šibenik as well as on some other locations in Croatia. After the brief visit we ride on nice winding path along the channel and under the pine trees to our next stop, U-shaped sea tunnel, built by axis forces during WW II for patrol boats which are locally known as „Hitler's eyes“ because of its two entrances overlooking the channel. The atmosphere inside the tunnel resembles the atmosphere from James Bond movies. From 007 we take you to exploration in Indiana Jones style - this time it's a small hidden cave chapel used by hermits in The Middle Ages. After this adventurous break we climb two panoramic hills with fantastic views on city of Šibenik, it's surrounding, channel and archipelago with numerous islands on the horizon. This is a must-photo-stop. At our final stage of the tour we ride on the opposite side of Šibenik bay and back to the city.

*Tour is private-guided, includes: e-bikes, helmet, guide, wine tasting with brunch, bottle of water, car support, energy bar*

## BIKE AND BOAT- ISLAND HOPPING

This unique tour is the ideal merge of modern and traditional attractions. It begins at the most beautiful and exciting sea channel on the Adriatic Sea - St. Anthony channel. This sea passage has always had special strategic role in controlling sea traffic in and out of Šibenik harbour so it was often referred to as "The defender of Šibenik". We will climb to panoramic hill top where we will enjoy unique view of the city of Šibenik and its surroundings together with numerous islands in the archipelago and get the real sense of where we are in time and place in the Šibenik region. This is the ideal photo opportunity for capturing memories and taking them back home. We are also going to discover the so called "Hitler's eyes" - a military sea tunnel from World War II. This is the place where fantasy is born as it is very similar to the James Bond movie set. From 007 we take you to nearby exploration in Indiana Jones style to the small cave chapel located in a vicinity which was used by hermits in middle ages. We continue on fairy tale winding path along the channel and its small bays and beaches under the shadow of the pine trees to get to the St. Nicholas fortress for brief visit. This fortification is placed on an islet at the channel entrance from the sea side and was built in the 16th century for the defense from the Ottoman Empire. Now it is under the UNESCO protection and was recently used as a set for the famous and very popular Game of Thrones. Then we will board the boat, your private yacht and time machine

for that day, as the island Prvić is small and still not overcrowded with tourists so it gives a taste of true, nowadays mostly lost, Dalmatian way of life. This nostalgic feeling is emphasized by the fact that cars are not allowed on the island and all of traffic is done by old, squeaky tractors. We will explore the island and its picturesque villages by bikes and refresh ourselves in some of the hidden bays enjoying privacy. The visit to a center dedicated to an inventor of parachute, Faust Vrančić, is also possible. After island Prvić we hop to Zlarin, the nearby island also known as the "Island of Corals". Zlarin is a miraculously peaceful, silent and a very green island whose inhabitants were known for their skill to find and extract sea corals using boats specific for that region, "latinsko idro" (Latin Sail) which can still be seen in their small harbour. After a ride through this old place and refreshment provided by the crystal clear sea, we will have lunch in a very intimate atmosphere at the restaurant serving only the best homemade local meat and sea food. After an exciting day your stomach will know how to thank you for such delicacies.

After dinner you can relax on fly deck of the yacht with glass of wine from one of the Šibenik's best wineries - Testament. All sweet water, fruits and wine are included in price so do not worry about dehydration. We sail back to St. Nicolas fortress and finish our trip through the channel of St. Anthony with spectacular entrance into the port of Šibenik.

*Tour is private – guided, includes, e-bikes, helmet, guide, private luxurious boat, fruits, snacks and drinks on boat, towels, water for ride*

# RETURN TO HISTORY WITH ETNOLAND DALMATI

Krka national park is a very popular destination for tourist all over the world. On a hot, sunny day, there really is no better place to be. The warm temperatures are perfect for swimming in the Krka, and just being around the waterfalls.

We offer you an experience you will never forget.

Not only will you have the opportunity to see Krka's beauty, but places that are not even mentioned in any brochures. There are lots of activities you can engage in: hiking trails, boat trips, off road tours.

Our excursion are divided into different levels. Beginners and more experienced ones. There is always a combination on the tour. A 5 hour trip includes a little bit of walking, driving, swimming, eating and off course enjoying.

We start at 8h: Pick up in Vodice, where we drive to Pakovo Selo. From there we divide into groups.

One goes to the canyon, where the other one takes an off road drive. Then we switch. Lunch-break at Etnoland Dalmati – ETNOLAND Dalmati is a family run historical and cultural site just next to the Krka National Park and city of Šibenik. We bring Dalmatian history to life. Go back in time and enjoy our award-winning cultural heritage tour. Experience authentic, interactive and entertaining storytelling, try the famous Drniš “pršut” (smoked ham) and enjoy our amazing family style “peka”.

Our excursions are for groups with a minimum of 4 to maximum 15 people.
