Welcome to Croatia, *a Mediterranean Eden* *for campers!*

Croatia is known for its long tradition as a Mediterranean Eden for camping enthusiasts. Camping tourism in Croatia is very well developed and widespread and Croatian campsites are particular because of their position on attractive and extremely well-preserved natural locations, most often very close to the sea.

The Croatian Camping Association, which comprises almost the entire Croatian camping offer, is proud to present Croatia's top quality campsites in this brochure.

Discover their exhilarating beauty!

We wish you a unique holiday, filled with beautiful and exciting experiences, in the arms of the primeval Mediterranean!

Your Croatian Camping Association

Croatian
Camping
Association

The best Croatian campsites are located in particularly enchanting locations, under the natural shade of Mediterranean vegetation and directly by the sea or immersed into the greenery of the continental Croatia. They have a rich catering and shopping offer and various sport and recreation facilities. Sanitary facilities are fully equipped with many conveniences for adults, children and people with special needs.

Mobile homes

Today, one can experience the joy and the liberty of a vacation in the fabulous nature of campsites even without owning a caravan or a tent, still preserving the maximum commodity. Mobile homes are equipped in modern style, including a kitchen, a living room, one or two bathrooms with shower and toilette, a terrace with outdoor furniture, air conditioning, satellite TV, Internet, etc. Croatian campsites constantly strive to expand their range of services and some of them already offer mobile homes with spacious and nicely maintained gardens, even with small swimming pools and whirlpools reserved for the exclusive use of mobile home guests. Maximum comfort in natural environment!

In Croatia, any form of camping in free areas outside registered camping sites or parking areas for caravans and motorized campers, is forbidden and is punishable by law.

www.camping.hr

The selection criteria are clearly defined.

The campsites must meet the minimal technical requirements for 4* and offer a high quality of sanitary facilities, accommodation units, gastronomy and shopping offer, sports, entertainment and animation facilities, which is confirmed by inspectors during their visit to the campsites.

Grades next to each campsite's name are estimated from grade 1 (lowest) to grade 5 (highest) for the following categories:

-  sanitary facilities
-  accommodation units
-  gastronomy and shopping
-  sports, entertainment and animation

The reservation of the required accommodation can be made in advance ensuring your dream holiday come true. Most of the selected campsites can be booked on the official Croatian Camping Association web site www.camping.hr.

The set requirements are fulfilled by the following campsites:

ISTRIA

The green Mediterranean

The peninsula in blue and green shades, lapped at three sides with crystal clear pure sea, on the very exit from Italy and Slovenia to Croatia, with beautiful beaches, a hinterland which contains a rich cultural heritage, medieval forts, olive and wine roads, superb gastronomic offer...

Information

Istrian coast length: 445,1 km, sea temperature during summer season 23-24°C, average summer temperature 23°C. Pine woods and evergreen underbrush cover 35% of the peninsula, thus during the summer months campsites have excellent shade. Mild Mediterranean climate: warm, dry summers, mild and pleasant winters.

Beaches

The Istrian sea is the warmest in Europe. The prevailing neat, paved and safe beaches have pine shade in the back and numerous attractions, including areas for children, the elderly and the disabled. As many as 50 Istrian beaches own the Blue Flag symbol and frequent measurements continually monitor the sea quality. Seclusion enthusiasts shall enjoy the rocky and pebbly coves and beaches of numerous little islets...

Active Holiday

Water sports, snorkelling, windsurfing, paragliding, cycling (2,600 kilometers of cycling trails), tennis (430 courts), golf, volleyball, beach volleyball, five-a-side football, horseback riding, sport climbing, hang-gliding, caving, hiking – there is enough to satisfy even the most adventurous visitor!

Gastronomy

the most famous delicacies is the magnificent aphrodisiac truffle, while home-made Istrian ham and wild asparagus are not far behind...

Istrian wines are recognized worldwide and especially renowned are the Istrian malvasia and teran – you may taste them when touring one of the many Istrian wine roads, with almost 70 wine cellars. Don't forget the olive roads, as well!

Istria is renowned for its traditional dishes made from fresh seafood, caught the same day in the rich Istrian waters, or from home-made supplies coming from the Istrian inland. Surely among

Sights

Each angle of Istria is a real postcard worth to be admired. Istria was named after Histri, first known inhabitants of this peninsula. Its churches, the authentic architecture with vaults, balconies, stony blocks, stonewalls and paved streets, the profane and sacral monuments left by numerous populations beginning from the Ancient Romans are interdicted here with amazing natural beauties...

The medieval picturesque towns – forts proudly standing on the Istrian hinterland's hills: Motovun, Gračišće, Grožnjan, Momjan, Boljun, Dvigrad, Roč, Lindar, Hum... all towns of artists, dreamers, of a rich history, witnesses of past times... **1**

The ancient part of Umag is dominated by the Museum, guardian of a precious archaeological collection... **2**

Standing on a peninsula, the ancient part of Rovinj captures the attention with the beauty of its tight narrow streets, main streets and small squares above which the most impressive monument proudly stands – the Rovinj's patron church, St. Eufemija... **3**

Pula, the biggest city of Istria County is best represented by the antique roman monuments. The amphitheatre Arena, the sixth biggest in the world, once scene of fight, today one of the most impressive monuments of Istria... **4**

The Brijuni national park islands situated on the South-Western part of Istria, are frequently called Paradise on Earth. This is a perfect junction of cultural-historical remains and wealth of flora and fauna species. **5**

The lighthouse Savudrija, the oldest lighthouse on the Adriatic in use ever, construed during the 1818 is a testimony of an unhappy love story of count Metternich... **6**

The Lim bay, the protected landscape and the natural phenomena of the submerged canyon valley offers a perfect view to the play of the blue and green cut deep into the mainland... **7**

The entire ancient part of Poreč is a unique cultural monument. The complex of Euphrasian Basilica under UNESCO's protection with its marvelous mosaics is an itinerary that leaves the most profound impressions... **8**

- aquapark Istralandia at 20 km

Welcome to Umag Riviera

Umag and its Riviera have approximately 13 000 inhabitants. Umag is classified as one of the oldest urban settlements in Istria. It is the closest Croatian town to main European traffic routes, "the tourist gate to the Croatian Adriatic Coast and Istria". The heradic symbol of Umag is a lion (the town was ruled by Venetian Republic for centuries), while in the tourist sense it is certainly the tennis racket thanks to its world famous ATP Tournament. The tourist facilities of Umag provide more than anywhere else in Croatia possibilities for a year round operation. Two well known hotel companies are located in it: Plava laguna and Kempinski!

Don't miss out!

VRSAR inspires

Vrsar Tourist Board

Located on the western coast of Istria, Vrsar offers magical sea views, vivid colours and modern tourist facilities. This abundant source of untouched Adriatic beauty and historical heritage has for decades tempted travellers and artists, while amenities, such as a marina and sports airport, have attracted adventurers and adrenalin seekers.

A safe haven for fishermen and seafarers, Vrsar was, on two occasions in the 18th century, home to the notorious Venetian lover Giacomo Casanova.

Vrsar's medieval town centre is situated at 54 metres above sea level, on a hill next to the sea, with numerous viewpoints boasting unforgettable views of the open sea and the archipelago of 18 islands.

Reconnect with the nature

Koversada Naturist Park is the most well-known naturist paradise of untouched nature located by the beautiful protected area of Lim Bay in Vrsar. Ever since 1961, it has been dedicated to offering relaxation and preserved nature, along with a wide range of restaurants, bars, sports facilities and entertainment programmes. All this, combined with comfortable accommodation, guarantees an unforgettable camping experience.

CURIOSITY

- in the vicinity: city of Rovinj
- close to the protected coastal area of the Saline bay
- directly on the Lim Bay

Rovinj is a romantic destination for all those who seek a sentimental atmosphere of a time that has gone forever. Developed on the fishing tradition under the vigilant eye of its patron St. Euphemia, the town's beauty was especially valued by artists who painted the most beautiful motifs and exhibited their artwork on the "Grisia" - Artists' Street. Many possibilities are available to visitors: beautiful nature walks, recreational sports, discovering hidden beauties, cultural heritages, archeological sites, tasting specialties from Rovinj, and, above all, a comfortable vacation in numerous highly-rated hotels and tourist resorts. Romantic and mysterious, but full of possibilities for an unforgettable vacation, Rovinj has become and remains a town that you will want to visit again.

KVARNER BAY

The wealth of sea and mountains

The largest Croatian bay, a region of islands and maritime coastlands, of green nature and mountains, architecture and culture... It stretches from the Učka massif and Rijeka to the Dalmatian coast, including the islands of Cres, Lošinj, Krk and Rab.

Information

Sea temperature during the summer season 24°C; average summer temperature 23°C. A great wealth of plant species: from oak and chestnut forests to pines, coastal dense evergreen underbrush, Spanish broom and sage.... In this area grows a great number of plant species that are truly rare – endemic species. The Kvarner Riviera climate is mild Mediterranean.

Beaches

It is said that some of the most beautiful Croatian breathtaking beaches and coves with small pebbles are located on the area of the Kvarner islands and often these beaches are accessible only by boat which makes them especially mysterious. On the coastal part comfortably neat beaches prevail, with plateaus and sunbathing spots.

Active Holiday

Watching dolphins or griffon vultures, sport and underwater activities on the sea, lakes and rivers, sailing, rafting, canoeing, fishing, mountaineering, hiking, cycling, hunting, horseback riding, windsurfing, parachuting, hang-gliding, tennis, beach volleyball...

Gastronomy

The wealth of the Kvarner kitchen is created by a variety of authentic dishes of the sea belt and those of the continental part. In the littoral region and the islands, you will be offered with Mediterranean tastes: renowned Kvarner scampi (shrimps), tasty lamb fed on the sage fields, "Šurlice"...

The kitchen of Gorski Kotar will overwhelm you with meat and game dishes, frog specialties, mushrooms, snails, freshwater fish... Highly esteemed among wines is the Vrbnik Žlahtina. Kvarner is famous for its renowned chestnuts in whose honor the manifestation "Dani maruna" ("The Chestnut Days") is held each October in Lovran.

Sights

Visiting Kvarner means enjoying the nature, from the littoral to the islands and mounts. Thanks to its favourable geographic location, Kvarner has always been the crossroad of many populations and civilizations. The first inhabitants were the Liburnians that spread their influence and commercial connections here and to give an important mark were even the Greek sailors and the Romans. An important influence was even the Austro-Ungaric, during whose empire many mansions and villas for the aristocracy were built and in this period the first beginnings of Kvarner tourism are registered... All of this is narrated today by various cultural traces and historical monuments.

Rijeka, capital city of the County, shall invite you to go for a walk along the large Korzo and to explore the historical monuments: Town Hall, St. Jeronimus' church, Guverner's palace, St. Vid's church, the Ancient Doors, the church of the Holly Assumption of the Blessed Virgin Mary, the city fortresses, the Croatian national theatre HNK of Ivan Zajc, the City Tower, the Capucines' church, Trsat... **3**

The 12 km long promenade connects towns Volosko, Opatija **2**, Ičići, Ika and Lovran, offering a comprehensive panoramic view to the Kvarner Gulf **1** and to a wide range of memorial monuments dedicated to important persons who lived here. The promenade passes through the famous Opatija's park...

Nature park Učka, situated on the homonymous mountain that dominates Istria and Kvarner, offers one of the most beautiful views of this area of Europe – the one extending from the highest top called Vojak... **4**

Cres Island is an attractive junction of nature and architecture, with lake Vrana whose level exceeds the surrounding sea level, the griffon vultures reserve but also enchanting towns as Lubenice **5** and Osor.

Situated in the hinterland of Rijeka and the Kvarner's littoral, on a karst hill, with so many geographical, geological, herbal, climatic and pedological phenomena, the Risnjak national park is a real paradise and a visit to it will really enrich one's body and soul... **6**

Lošinj Island **7** had once been an important maritime centre and today it is an ecologic destination with a salutary climate and a natural habitat of tame maritime mammals – the dolphins.

One of the most important monuments of the Croatian language that testifies of the arrival of Croats on the Kvarner during the seventh century. The Baška Stone Tablet **8** dates back to the year 1100. It has been found and it is guarded on Krk island, an island with incredibly beautiful beaches and a marvelous nature...

- Ferry costs refunded for 12 and 20 nights stay
- Special offers in low season: 7=6, 14=12 nights

All the advantages of Cres Island's nature seem to melt in this campsite surrounded by Mediterranean vegetation, with two bays and one of the island's most beautiful pebble beaches. Thanks to the terraced ground, every accommodation unit has a nice view of the sea and the surrounding area. It's a very popular campsite among passionate sports lovers, as well as among the ones looking for a peaceful corner. It represents a real challenge for nature and sea lovers.

Great eco campsite for a family vacation

New:

- replacing old „Family bungalow“ with new „Deluxe Family Home“
- new educational children playground
- new info point
- paving specific road sections
- widening and repairing the access road

Immersed in the shade of oak trees, located on the west coast of the island of Krk, with a beautiful view over the Kvarner Bay, the campsite Glavotok is a real green paradise for nature lovers. With the aim of preserving the environment, the campsite uses many innovative concepts of using solar energy, waste management, water saving etc., for which it regularly receives numerous awards.

DALMATIA

Coves, rocky beaches and sea crystals

Clear sea and indented coast in karst, with a great number of islands, coves and bays and an impressive hinterland with high mountains... The rich history left precious traces, while the culinary tradition and wine production is a joy to all the ones who taste it...

Information

Sea temperature during the summer season 25°C; average summer temperature 24-26°C. Pine woods, olives, vineyards, citrus fruits, almond, figs... Mediterranean climate: extremely warm and dry summers, mild and humid winters.

Beaches

The charm of Dalmatian beaches lies in their wildness. Along the indented coast or on wonderful islands, it is easy to find seclusion and lie on the warm sand or pebble while you are being splashed by crystal clear waves...

Active Holiday

Water sports, sailing, snorkeling, fishing, kayaking, rafting, canoeing, horseback riding, free climbing, mountaineering, cycling, hiking, tennis, beach volleyball.

Gastronomy

Fish has always been the number one Dalmatian specialty: white or oily fish; grilled fish, “brodetto” or cooked fish, with home-made olive oil as a must... Equally popular are meat dishes such as Dalmatian “pašticada”, island lamb, mutton and goat-meat, domestic ham... Numerous are the Dalmatian autochthon taverns where

with a perfect atmosphere, jovial hosts and a jug of wine you can taste a spirit of Dalmatian tradition... and for dessert: “rožata” (typical local sweet with jelly) or a snort of maraschino – original Croatian product of the Dalmatian territory!

Sights

Throughout this spacious Croatian County we can find traces of different cultures and populations that dwelt here since the first century: the Iliri, the Ancient Romans, the Avaric-Slav populations, the Venetians, the Turks, the French, the Italians... North Dalmatia is represented by Zadar, Central Dalmatia by Split and South Dalmatia by Dubrovnik - cities that through history represented a cultural, artistic and trade centre of the region. And besides history, even the nature is very important here, unusually beautiful. The islets are spread along the coastline, parallel with Dalmatian mountains and alongside the County there are 5 national parks!

The enchanting beauty of national parks Paklenica, Krka **1**, Kornati, Northern Velebit and Mljet **2** springs out from the wealth of nature and the unique flora and fauna species, sunny landscapes within which islets, rivers, waterfalls, slopes, sea and mountains succeed one another by turns...

The most impressive pearls of the rich monumental heritage of Zadar **3** - the Roman forum and St. Donat's church - are in total harmony with a unique contemporaneous attractions like the Sea organ and the installation „Greeting to the sun“...

Stony and serried houses, narrow and sinuous streets with many stairs and vaulted passages are characterizing Šibenik, city particularly proud of its unique monument of the European sacral architecture, the St. Jacob's cathedral, under UNESCO's heritage list. **4**

The well-indented Dalmatian islands make the landscape particularly beautiful and each one of them is hiding picturesque towns full of history and hospitable hosts, bays and beaches that just the untouched nature can offer, sunrises that shall remain impressed in one's memory for a long time... as far as the tourist offer is concerned, islands as Brač, Hvar, Pag, Murter, Vis and Korčula deserve to be pointed out... **5**

5

7

6

75

The national parks of Dalmatia are gifts of nature that always reminds of the beauty that has to be preserved just like the most precious treasure: Telašćica Bay on Dugi otok, lake Vrana between Šibenik and Zadar with the ornithological reserve, Biokovo on a mountainous massif that divides the Adriatic from the Dalmatian Zagora, a magical mountain of Velebit **6** and Lastovo, that due to its beautiful islets, the exuberant vegetation and plenty of fish is called the Royal Island.

Split is the king Diocletian's city that built here a luxurious villa – today UNESCO's heritage and with the proud cathedral of St. Dujam and the spacious Peristile situated right into the city centre. **7**

Dubrovnik, one of the most attractive cities of the Mediterranean draws out its beauty from a unique political and cultural history that even nowadays reveals itself through the monumental heritage known worldwide and registered into the UNESCO's register of world's cultural heritage: Stradun, the City Walls, St. Vlaho's church, the City Hall... **8**

Camping in the heart of the Adriatic Sea!

The campsite Ugljan Resort is located on the island of Ugljan, one of the largest islands in the Zadar archipelago. Surrounded by olive groves and Mediterranean vegetation, it offers to its guests a unique camping experience. The campsite is ideal for couples and families looking for peace and quiet, as well as comfort and relaxing holidays. You can feel the spirit of the island's old settlements in the numerous narrow streets with stone houses in the towns of Kali and Preko, just a twenty-minute drive from the campsite.

**CENTRAL
DALMATIA**

Split-Dalmatia County Tourist Board

Experience Okrug!

Okrug (from Croatian word circle, N/A) earned its name due to the circular bay on the south-western side of the Čiovo Island. Just as its name suggests, it will provide you with a well - rounded vacation experience!

It consists of two towns – Okrug Gornji and Okrug Donji. Their excellent location in Saldun Bay – just a few kilometres away from Split Airport and Trogir, UNESCO's gem – is merely a fraction of a long list of things to love about this place!

Immediate proximity of attractive destinations - from Split to Dubrovnik, can turn this peaceful Mediterranean oasis into a starting point of a tailor-made excursion in a wink!

However, lovers of an idyllic Dalmatian ambience don't need to go far. Whether you enjoy a relaxing beach experience in the company of your loved ones, or active holidays with an adrenaline rush, Okrug may have just what you're looking for! Explore the attractive underwater walls with the assistance of professionals from the local diving school-or hidden beaches and bays! Create your own cyclotouristic adventure or choose a favourite water sport, but, whatever you decide, don't skip a visit to the town's lifeblood - Toć Beach! Find out why it is known as the Dalmatian version of the famous Copacabana!

If out of all the experiences you prefer those for the palate, you'll be delighted with a wide selection of healthy and tasty Mediterranean specialties served in local restaurants and taverns, often rounded off both with a glass of homemade wine and a klapa song!

More than thousand tastefully decorated apartments, villas and two attractive camps, as well as extremely friendly Okrug hosts known for their highly personalized approach, will offer you a great accommodation experience. And with its 2570 hours of sunshine per year and average air temperature of 16.3°C, even nature welcomes you to this charming town - all year round!

*Charming
campsite for
nature lovers*

The campsite lies on the Pelješac peninsula, overlooking the island of Korčula. It is characterized by its plots which are spread out across terraced grounds sloping towards the sea and by the long pebble beach surrounded by a lush green countryside. The campsite area is isolated from any kind of noise, enabling a peaceful family holiday, still without renouncing to modern conveniences. The campsite's restaurant serves authentic food and red wines from Pelješac.

CENTRAL CROATIA

(Karlovac County)

The kingdom of vegetation and beautiful rivers

The green part of continental Croatia, located on many beautiful rivers, a pure and healthy environment, fresh air and the scent of nature...

Information

Average summer temperature 21-22°C. Rivers, small lakes, streams and waterfalls are interlaced with groves, meadows and forests rich with mushrooms, chestnut-trees and unexplored caves. A combination of continental and Mediterranean climate.

Active Holiday

Walks in the nature, cycling, river rafting and canoeing, fishing, hunting, mushroom, chestnut and hazelnut picking, tennis, five-a-side football, caving.

Gastronomy

Particularly interesting is the freshwater fish, from the natural environment of the rivers or from hatcheries. The region of Central Croatia is also famous for its tradition of hunting, so don't be surprised to smell inviting fragrances of game dishes with mushrooms...

Sights

The Plitvice Lakes National Park ¹ under UNESCO's auspices. Sixteen lakes interconnected with waterfalls created by deposition of travertine, a special kind of limestone, constitute the main attraction of this unique park. The park includes the spring of the Korana River in the area surrounded by dense forests of beech, fir and spruce, partly in the form of primeval virgin forest. Apart from the lakes and forests, the Park is ornamented with several caves, springs, flower meadows and is inhabited by brown bear, among other animal species. The popularity of this park is also in the use of special vehicle for transporting visitors (panoramic trains and electric boats) and is conveniently situated at the main road from Zagreb to Dalmatia.

The Croatian capital, Zagreb ² is located in its center. It is connected to all important European centers and located on a favorable highway route that leads in the direction of the Adriatic. Zagreb is rich in tourist attractions, some of which are located in its oldest part, the so-called Upper Town. There is also the Cathedral and the church of St. Marko. Visitors are recommended to visit the numerous museums and parks, including the Klovičevi dvori gallery and Maksimir park – a wealth of things to see and do in this 1000-year-old city.

Located in the heart of Croatia, the city of Karlovac ³ is known as the city on the four rivers; Korana, Kupa, Mrežnica and Dobra. It is situated only 55 km from the Croatian capital Zagreb. Because of its location, Karlovac is one of the most popular rafting destinations in Croatia. Fishing is another activity that can't be missed. The historic center is actually a fortress in the form of a six-pointed star that used to protect the city from Ottoman conquerors.
