# Top Camping labels

Glamping is a quality that meets all the criteria as well as the EXCLUSIVE level, but in addition it has a predicate of luxury facilities that are glamorous and unique in their appearance and equipment. Services in toilets, accommodation facilities, reception of guests, restaurant, beach facilities, assortment in shops and leisure programs, as a rule, exceed the quality of the most luxurious 5-star hotels. Given the high quality and promises that this level of brand gives, the quality of service from the qualification of camping staff to the range is unquestionable and guaranteed, and by their service character they give total quality with zero error tolerance. GLAMPING is the highest rating and speaks of the glamorous furnishing of the campsite in all its elements including location, natural beach of the building, luxurious and functional toilets, logical layout of all types of accommodation tastefully furnished and in traditional architectural style, leisure facilities, service and leisure with an emphasis on eco management, nature protection and sustainable tourism. According to the evaluation criteria, it meets the criteria of the national classification for 5 stars, although this is not a condition.

Exclusive is a higher level of quality that offers the same as SUPERIOR but with additional exclusive offers that are more generous than the previous two quality categories, whether it is a location that is unique in its panoramic and landscape form or offers that others do not have such as golf courses, special mini villages for children, richer pool offers, wine shops, themed shopping and a renowned gastronomic offer with an exclusive selection of traditional local dishes as well as eco products. The exclusive offer often has certain services that others do not have, such as a beauty center, massage rooms with aromatherapy, etc.

Superior is a medium level of quality that has all the services offered by COMFORT but additionally with a slightly higher level of equipment, labeling and quality. Also, there is a higher offer and level of entertainment and events with weekly programs. Shops and leisure services are in the immediate vicinity of the campers accommodation. The plots are mostly fenced with green natural hedges and clearly marked with prescribed vestibles.

Comfort is a basic level of TOP camping quality and meets the criteria of the national classification for 4 stars, which means especially good sanitation and accommodation. Top COMFORT is a practical campsite, especially for nature lovers and has elements of satisfactory quality in all elements that are evaluated where toilets and pitches are always around 4 points. It is not glamorous, but is a candidate for a higher category according to his services. Swimming opportunities can be outside the camp, but it is desirable to have a pool in the camp. It has all services for sports and leisure. The access roads are illuminated. Waste containers are sorted by type of waste and in special protected areas. For this as well as for other categories, TOP cleanliness is the first condition. Entrance to the camp is not possible from 23:00 to 07:00 in the morning, and the reception is open 24 hours.

## TOP CAMPING CLASSIFICATION

The level of the offer is evaluated with 5 elements: SANITARY FACILITIES, PLOTS, SUPPLY-SERVICE, LEISURE AND BEACHES. Each element is scored from 1 to 5 points. Each element does not have the same weight when scoring, so for example toilets and plots make up 60 percent of the total score. The final grade is descriptive and has a predicate for the best quality GLAMPING, then EXCLUSIVE, SUPERIOR and COMFORT. As a rule, all start with 4 stars of the national camping classification, and it is possible that the lack of one star will be covered by international quality awards such as the ADAC Superplatz or Leading Campings table.

Croatian Quality

Proud owner of the label  
"CROATIAN QUALITY"  
assigned by Croatian Chamber of Commerce

## RESPECTED QUALITY AWARDS

The German automotive club ADAC, one of the most prestigious European associations, has defined the system for evaluating the quality, contents and services of campsites which is used today for more than 5,500 European campsites. Only a few of the best receive the ADAC Best Camping award. The award is given to campsites with the standard of services corresponding to 5 stars.

ANWB Top Camping is a more significant indicator of the campsite's high quality level. The ANWB automobile club assigns it to campsites of exceptional quality that correspond to the highest rating - 5 stars. The vote is an evaluation system from inspections by the ANWB. The prize is valid for one year

At first glance, the island of Pag is rocky, rough, lined with sky-blue sea, situated under the Velebit mountains. He is often called the “island of stone” or “Moon Island” because of the surface which provides a somewhat unusual landscape stone with so many different forms that only nature can make and take such a draining surface. The island of Pag is one of the sunniest islands in the Adriatic with over 2,500 hours of sunshine annually.

Kargita is a family campsite located right along the sea, in a beautiful bay which ends at the top of Dugi Otok (Long Island). It's on the northwestern tip of the island Dugi Otok. This little part of the world is protected and has been declared a significant Croatian landscape. Surrounded by the sea and forest, this campsite is a quiet little corner for those who want to escape from everyday life a bit. The gentle rocky beach in front of the camp is one of the most beautiful beaches on Dugi Otok. The campsite is only 300 meters away from the largest lighthouse on the Adriatic and it offers a unique view of this great guardian of the sea and maritime passengers. Enchanting sunsets will surely awaken the romance in you. We tried to stay away from touching the natural beauty of the camp, in order to preserve the environment and keep it as it has always been.
